Gen. Matos, who, Andrade said, was immensely rich, an honorable man, a perfect gentleman, much esteemed and well supported in many quarters, would possibly be a candidate for the Presidency, once Castro is overthrown. Andrade added that he himself was unwilling to seek reflection.

When questioned on the subject of the Venesuelan revolutionary steamer Liberatador, Andrade said he was confident the expedition would succeed in effecting a landing on some eastern point of the Venesuelan coast.

VALLEJO, Jan. 6.—The second annual convention of the California State
Federation of Labor opened this morning with an attendance of more than
two hundred delegates. The majority
arrived here on the steamer Monticello,
which made a special trip from San
Francisco. The visitors were given a
warm reception by the residents of Vallejo, and many of the stores displayed
flags and bunting and union mottoes.
The convention was called to order in
Samoset Hail, which was tastefully
decorated with American flags.

President Rogers of the State Federation of Labor was given an ovation.
He was very brief in his opening remarks, but took occasion to say that
political discussion would not be permitted in the convention.

He was followed by W. T. Kelley, president of the Board of Trustees of the city of Vallejo, who, in the name the city of Vallejo, who, in the name of the residents of the city, gave welcome and greeting to the representatives of the labor organizations.

Every branch of labor in California is represented in the convention. The fair sex has a delegate in Mrs. Minnie Anderson of local union No. 61 of San Francisco Cooks and Waiters.

The first important business of the session was the appointment of a Com-

tary and treasurer. Guy Lathrop, San Francisco.

Some discussion took place as to whether non-union men should be allowed in the hall, but a motion that the session be an open one was carried unanimously.

The report of the Committee on Credentials was read by Guy Lathrop, secretary of the Federation. It recommended that Delegate Case of the Shipwights' and Caulkers' Union be not allowed a seat in the convention.

The charter of this union is under suspension by the American Federation of Labor on a charge that the union lowered the national scale of wages. Delegate Case made a strong objection to the recommendation of the Committee on Credentials and demanded that he be seated. He said that his union was obliged to call off the recent strike, as it was threatened with disruption.

After adjournment the delegates visited the Mare Island navy yard. A smoker was given to the visitors this evening by local unions.

Mayor-elect Schmits of San Francisco arrived tonight and was banqueted by the local machinists' union. He made a few remarks and favored his hosts with a violin solo. Efforts to secure the next convention are being made by Sacramento, San José and Los Angeles.

CRUDE RUBBER COMPANY.

Creditors Will Get Every Dollar Owing to Them According to One of Heaviest

BY THE NEW ASSOCIATED PRESS-A M.)

NEW YORK, Jan. 6.—In an interview explaining the condition of the Crude Rubber Company, which has just passed into the hands of a receiver, Charles R. Flint, one of the most interested in the company, said it owed \$1,000,000 to five bankers. He declined to give the names of the bankers, however, saying that they were not worrying about the incident, and that it was not a matter of great public interest. He continued:

"The public can only be interested in the debts which affect creditors widely distributed, on the banks with which they do business. This does not affect either. The twenty banks who have lent the \$2,000,000, owing on Crude Rubber are fully insured. They will get their money from the sale of the rubber.

"The other \$2,000,000 is a contingent liability which arises from the company's indorsement of notes given to it by customers for value received. Elight hundred thousand dollars of this sum is on the notes of George Watkinson & Co. of Philadelphia, who have failed. The other \$1,200,000 is upon notes of absolutely solvent companies, and every dollar of these will be paid upon maturity. Watkinson informs me that his firm has assets exceeding its liabilities of \$400,000. As the firm's assets consist largely of accounts due from 10,000 retailers, it is fair to assume that there may be a material shrinkage in their value, but at the worst they will probably have but a small deficiency. This, the Crude Rubber Company was made after a consultation with all of the principal creditors, and was made in their interest. One million dollars' worth of crude rubber was sold to the United States Rubber Company at a concession in price. This is to be paid for in cash at sixty days, and the money will go to the banks which have made advances. The other million dollars' worth of rubber on hand or in transit has been turned over to the International Crude Rubber Company, at a concession in price. This is to be paid for in cash at sixty days, and the money will be turned over to the

Lieut. Thleme is the best pistol shot of his regiment, and pistols were selected by the court of honor, composed exclusively of army officers, notwithstanding the fact that the student societies proposed the use of sabrea. The court of honor stipulated that five shots be exchanged between the duellista, consequently Held had little chance of escape. He was killed at the third exchange of shots.

The duel resulted from a party of students having josted some army officers in the streets. Held was with the students, and he slapped the face of Lieut. Thieme, who was in plain clothes.

opinion of the court was read by Judge Morrow, who said:

"I concur in the finding of fact conytained in the opinion of Judge Gilbert, in the cases of Arthur H. Noyes, Joseph K. Wood and C. A. S. Frost. I am also of the opinion that the evidence does not establish the charge against Thomas J. Gary.

"In my judgment, the evidence established the fact that there was a conspiracy between the respondent Noyes, McKensle and others to secure possession of certain valuable mining claims at Nome, Alaska, under proceedings involving appointment of a receiver for the purpose of working the properties, and obtaining the gold deposited in the claims. To carry these proceedings to a supposed conclusion, Noyes, McKensle and others found it a necessary part of their scheme to resort to the process of this court. In pursuance of this conspirary the contempt charged against Noyes was committed, but I agree with Judge Gilbert that this conspiracy is outside the charge of contempt, and in view of the fact that the respondent Noyes holds a judicial position, I concur in his judgment that the respondent be required to pay a fine or \$1000."

Judge Gilbert and Judge Morrow were of the same opinion in all respects.

the people of Northwestern Alaska are

it is impracticable to allow him to beturn to his post at Nome.

States Circuit Judge. Morrow handed
down a decision today in the case of
the San Joaquin and Kings River Canal and Irrigation Company vs. the
county of Stanislaus and its Board of
Supervisors. The decision is in favor
of the complainant.

of the complainant.

This was a suit in equity brought September 29, 1896, to enjoin the defendants from enforcing the order of the Board of Supervisors of Stanislaus county fixing water rates to be charged by the complainant, and to declare such order nuil and void.

Judge Morrow has decided that the complainant waived its right to secure an income of 1½ per cent. per month by not making rates to secure that income during any part of its term of existence prior to the passage of the act of 1885, this act providing that the net annual receipts as adjusted by the Board of Supervisors shall not be less than six nor more than 18 per cent. per annum. Judge Morrow finds, however, that the Supervisors gave no consideration to the evidence showing the amount of capital actually paid into the corporation or the actual, reasonable or proper cost of the works. Judgment is therefore given for the complainant.

WASHINGTON, Jan. 6.—[Exclusive Dispatch.] Some of the Republican politicians of Maryland, Rear-Admiral Schley's State, have decided to visit the President and recommend the appointment of ex-Gov. Lowndes as Secretary of the Navy to succeed Mr. Long upon his retirement from the Cabinet. wants is a declaration by Congress that he was in command during the naval battle of July 3, 1898.

The bill of Bepresentative Schirm comes nearer an expression of Schley's views than any of the other bills before Congress. The adoption of the Schirm measure would amount to a legislative act overriding the judicial act of the court of inquiry. It would also be carried on the records of the Navy Department, and would insure to Schley permanent credit for the victory at Santiago.

SECRETARY LONG'S DEFENSE.
INT THE NEW ASSOCIATED PRESS—A.M.I
WASHINGTON, Jan. 6.—Secretary
Long has addressed to Senator Enute
Nelson of Minnesota a long letter defending the Navy Department against
what is, declared to be unfriendly critteism in connection with the distribuof prize money and bounty. The letter is called forth by one from the
Senators asking information on this

icism that the department has discriminated in favor of Rear-Admiral Sampson and against Rear-Admiral Schley in the distribution of prize money and bounty is unjust, because the department has no control of this matter, the money being distributed from the treasury, and all questions of law and fact relative to prise and bounty having been determined by the courts. The Secretary calls attention to the laws touching prize and bounty, as they existed at the beginning of the Spanish War, and says that, though advised by the Attorney-General that it might make a distribution, the Navy Department preferred to place the matter in the Court of Claims, and so far from displaying favoritism, adopted the means in its power to secure a just determination by courts of laws of the rights of all concerned.

Touching the claim of Rear-Admiral Sampson for bounty at Santhago, the Secretary says that the distribution was made under a decree of the Court of Claims, which he cites, and from which no appeal was taken. He further points out that under the prize laws, the commander-in-chief of the feet is entitled to his 'one-twentieth' of bounty by virtue of his position as commander-in-chief, whether he is personally present during the engagement or not. Says the Secretary: "As commander-in-chief, whether he is personally present during the engagement or not. which the Navy Department is in no wise responsible."
On this point, the Secretary says the department itself was the first to realize the inequalities of this law, and to make the recommendation which led to its repeal, so that a rather amusing feature of the attacks made upon the Navy Department is that the administration is blamed more than two years after it had cured the evil."
The Secretary concludes his letter with an extract from the report of the auditor of the treasury for the Navy Department, showing the status of the prize money and bounty cases yet unsettled, owing to delays in the courts, and predicting a settlement within a year.

CHINESE EXCLUSION BILL. PACIFIC COAST PROPOSITION.

IN THE NEW ASSOCIATED PRESS-P.M.!

WASHINGTON. Jan. 6.—The Senators and Representatives of the Pacific Coast, who have been considering a bill for Chinese exclusion, have perfected a measure which will be introduced in both houses in a few days. It is much more of a compromise than any bills that have been presented heretofore on this subject, most of which simply provided for excluding Chinese or renacting the Geary law. The bill under consideration contains forty-five pages, it does not limit itself to any term of years, as did the Geary act, but if passed in its present form, would be perpetual unless repealed.

The bill declares that all Chinese, other than citizens of the United States or those who are secured in coming to and residing in the United States under the present freaty with China, shall be refused admission, and returned to the country whence they came at the expense of the transportation companies bringing them. Transportation complying with the porvisions of the act, 31000 and one year's imprisonment being the minimum, with a liability to forfeiture of vessels violating any of the provisions of the iaw. The only Chinese persons permitted to enter those who have become citisens by birth and maturalisation, and officials of the Chinese government, teachers, students, merchants, travelers for pleasure or curiosity, returning laborers, who must have certificates, or domiciled merchants. Chinese coming as above enumerated must have certificates, with a photograph attached. The Secretary of the Treasury is to ask the Chinese government for the list of names of all officials other than diplomatic and consular officers who desire to visit the United States.

Several sections are devoted to pro-

state and consular oncers woo desire to visit the United States.

Several sections are devoted to providing how Chinese laborers shall be registered and provided with certificates when returning to this country. Certificates for any Chinese laborer are not good after such laborer has been absent for two years. Domiciled merchants are compelled to file annually a full and complete report of the nature and character of their business, in order to better identify them. No Chinese, except diplomatic or consular officers, are allowed to enter the United States at any other ports than suiar officers, are allowed to enter the United States at any other ports than San Francisco, Port Townsend, Wash.; Portland, Or.; Boston, New York, New Orleans, Honolulu, San Juan and Manila, or such other ports as the Secretary of the Treasury may designate. Ports may be designated on the Canadian or Mexican boundary, after contracts have been made with the transportation lines to comply with the act. Provision is made for the inspection of Chinese and enforcement of the provisions of the act under the direction of the Commissioner of Immigration; also for the deportation of Chinese who come to this country. Appeals from the commissioner or his officers to the United States courts are provided for, and the methods by which cases may be brought to the Supreme Court are defined.

Thousands Respond To the Big-Furnishing Sale.

Our big January clearance sale for men has rivaled any bargain event ever planned in this store. \$20,000 worth of furnishing goods of every conceivable kind marked at one-third and onehalf less than regular. Make out a list of the things you need and bring it to Jacoby's today.

The Times is able to offer to patrons throughout Southern California a mail box manufactured by the Signal Mail Box Co., of Joliet, Ill. It is approved by the Government for rural mail service.

DESCRIPTION.

The box in size is 18x12x7, being large and commodious. It is made of galvanized iron, and subjected to an aluminum treatment, which insures it against rust. It is equipped with an automatic signal, and a regular Yale lock, with two keys for the householder, and owner's name, stenciled, is furnished with

The SUNDAY TIMES.

It is positively the only box offered for sale in Southern California, large enough to receive a copy of the Sunday Times without serious injury to the paper by being rolled and crushed. Particular attention is

called to this advantage. Boxes for rural service are to be had at prices ranging from seventy cents each to \$3.50. After a careful inspection of the various makes, The Times selected the one made by the Signal Mail Box Co., as being the one combining the greatest number of advantages and much the cheapest one on the market when its merits are considered in connection with the cheaper boxes. The cheaper boxes invariably rust out after the heat of the sun has cracked the surface finish, and they are soon rendered useless, while the box offered here is proof against the weather. The Times offers the above described box for \$2.50 to subscribers only, with the purchaser's name stenciled and bolted on in each case. For further particulars, address,

Feature of the Card Was the Oaklan Handicap in Which Homestead Caught La Goleta—Investigation of "Doping"

BAN FRANCISCO, Jan. 6.—The books were hit hard at Oakland to-day, as well-played horses were successful. The feature of the card was in the Oakland Handicap, at a mile and fifty yards. It resulted in a nose victory for Homestead, who got up in time to catch La Goleta. The winner was easily the best, as he was giving away much weight to his field. Dangerous Maid led all the way in the sixfurion race, and beat Ordnung a neck. Lepidus, played from 3 to 1 to 11 to 5, was never headed in the mile-and-asixteenth race, and won from Bathos, a 20-to-1 chance. El Mido galloped home in front of Sylvan Lass and Afghan in the last race.

The officials are still investigating the "doping" or poisoning of /The Giver, Friday night, but have made no discoveries as to how it was done. One of the veterinary surgeons stated that he believed the colt was given chloral hydrate. The Giver has recovered. Results:

on the occasion of the court's return to Peking. The ministers will compity.

The families of the foreign diplomats will occupy the buildings which the Chinese government has tendered them for the purpose of viewing the parade. There is much criticism of this course among the foreigners, who are not satisfied with the fact that the ministers alone are to remain in the legation. They believe that the event should be completely ignored. They say that the presence of any members of the legations will be construed as being a sort of homage to the court, and will be thus proclaimed among the people.

Many foreign soldiers and a few officers today violated the government's request to keep off the streets, which have been cleaned and decerated for the royal procession. This is likely to create resentment.

SAN FRANCISCO, Jan. 6.—In compliance with the directions of his legal advisors, Mayor-elect Eugene E. Schmitz made demand upon Mayor Phelan today for the possession of the office of Chief Magistrate of San Francisco. Six members of the Board of Supervisors, who were chosen at the last election, made a similar demand of that body. All were rejected, and the new officials will be obliged to wait until Wednesday, at midnight, before being installed into the offices to which they were elected.

The demands made today for the surrender of the offices were for the purpose of saving the legal point as to the proper time for assuming office, there being a difference of opinion among lawyers as to whether the new officials should go in today or Wednesday.

Mayor-elect Schmitz stated, after the Board of Supervisors had adjourned, that his list of appointments would not be made public until he assumed office Wednesday, or, strictly speaking, until he has made them. From this statement, the inference is drawn that the Mayor-elect has not fully settled upon the personnel of some of the commissions.

IBY THE NEW ASSOCIATED PRESS—A.M.1 COLUMBUS (O.) Jan, 6.—The Ohio Legislature convened today in blennial session. Both branches elected the officers nominated at the Republican caucuses last Tuesday evening.

At noon, the annual message of Gov. Nash was read in both the Senate and House. It was noted for its recommendations of a new system of taxation, under which all taxes for State purposes are to be raised from corporation, franchises, the liquor traffic, etc.,

and all direct taxation for county, municipal or, other purposes are to be left to the counties. It is a system of home rule in local taxes. Concerning corporations, the Governor said:

"Because they are created by the State and possess certificates bearing the impress of her seal, people are led to believe that they are safer to do business with and are more entitled to credit than are private partnerships and individuals. In very many cases they are less worthy of confidence. They are authorized by the State to do business before one dollar of capital stock has been paid. This is an unfortunate condition of affairs.

"The State, before she gives these corporations her approval and permits them to do business, ought to require that all their capital stock be paid in and the money invested in the business they propose to transact. She ought to make sure of this fact by a report made to some competent officer. We should go further, and require these companies to make amual reports, to be filed with and be inspected by this officer. This report could show, among other things, how much of the capital stock has been paid, how the money is invested, what the assets are, the amount of liabilities and the names of the stockholders. In fact, there abould be such a record of every corporation that the people may know at all times whether it is worthy of credit and confidence. I believe, with some such regulations, Ohio corporations would be placed on a solid financial basis.

"The publicity which would be given by such action could not by any possibility injure a really worthy and sound corporation. It would protect the public against unworthy and falling corporations. As matters now stand, the Secretary of State knows nothing about a corporation after it leaves his office with a charater from the State. He cannot even tell how many of the 40,000 or more corporations chartered by the State during the last fifty years are now dead, nor how many are still living. The State creates the thing, causes it to do business, send

NEW YORK, Jan. 4.-The contest NEW YORK, Jan. 5.—The contest over the possession of the police courts of Brooklyn was continued today. Rives, recognized Durack as the legally-elected magistrate, and they forcibly ejected Dooley. A policeman advanced to the bench, and apologized to Dooley for disturbing him, declaring that he was only obeying orders. "Well," replied Dooley, "you must take the consequences."

Two policemen then ascended to the bench, and each seizing Dooley by an arm, lifted him bodily from his chair. As soon as the chair was empty Durack sprang into it, and declared the court adjourned.

Dooley, after his forcible removal, went to the office of his attorney.

Justice Margan, in the Supreme Court, issued an order Saturday directing the Sheriff of Kings county to recognize the appointed magistrates, on the ground that the law under which the contesting magistrates were elected was unconstitutional. At about the same time Corporation Counsel Rives gave an opinion to the police department, holding it to be their duty to regard the elected magistrates as entitled legally to the possession of the offices.

They Attend Patients.

The same thief who first began operations by stealing coats and vests of workingmen, left in buildings on which they were engaged, and later took watches and other valuables from the clothing of such workingmen, is on a new tack. During the past few days several doctors have reported the loss of their surgical instrument cases from their buggles.

Dr. H. G. Brainerd, formerly in charge of the County Hospital, left his instrument case in his buggy while he entered his office for a few minutes, and when he returned the case was missing. It contained a fine set of instruments of considerable value, and particularly to him because of association. He offers a liberal reward. Dr. J. H. Martindale had a similar experience. His case contained a set of the finest instruments that can be purchased, and as all are plainly marked with the name of the owner, they will net the thief little or nothing. What a sneak thief can do with such instruments is not known, for any attempt to sell them here would result almost certainly in arrest. No trace of any of the shelen property has been found.

The above amount is offered for information which will lead to the arrest of the thief or theres. Who stole 700 copies of The Times Sunday Marasins and editorial sheet of the festie of December 27. Another important provision of the measure requires every alien who applies for naturalization to declare, as a part of his oath, that he will not commit any of the scts referred to, against the President or any official in the line of succession; also that he will not "avow a conviction or express a belief that the subversion or attempted subversion of the government of the United States by any violent means is a valid and justifiable principle of action." Violation of this oath is defined as a felony, to be punished by imprisonment not exceeding fifty years. It is further provided that in such cases "the decree of naturalization shall be null and void, and the person so convicted shall be forever denied any rights, privileges, benefits or advantages under such decree."

What the fate of this bill will be, course, uncertain. But the penalties ich it prescribes for the offense med are none too severe. These of Bryan says there is nobody in the United States who is at present quali-fied to name the Democratic candidate for the Presidency in 1904. the punishments should be correspondingly heavy. No namby-pambyism or mawkish sentimentality should
be permitted to interfere with the
atern and just retributions of the law.

BURBANK. "Rosemary," presented by the Neill company this week, is a play in which there is no villain but the hero. It has other qualities which piny in which there is no villain but the hero. It has other qualities which are unusual, because they are genuine. It is fresh and sweet, and is pensive enough to make it irresistibly English. As an idyllic comedy its standard is of the highest, and it has been long enough before theater goers to have earned and maintained the fine reputation that it deserves. It is the only play of conspicuous artistic merit that the Neills have presented at this engagement. That Mr. Neill is willing to show it, even at a loss, for the Burbank audiences prefer the bustle and paint and rasping rant of melodrama to the subtle sentiment of comedy, is a tribute to his taste, and an evidence that he is truly desirous of giving Los Angeles the best that the play market affords. "Rosemary" was written by Louis N. Parker, whose more recent work has been the translation of "L'Algion" for Maude Adams's use. He wrote in collaboration with Murray Carson. Charles Wyndham, the English comedian, produced it first, and then John Drew had it in this country. Otts Skinner was also seen in it for a season. It was as Dorothy Cruickshank that Maude

CHUTES. Sky-blue opera lengths.

CHUTES. Sky-blue opera lengths, with a pink garter, are the sensation of the week at the Chutes Theater. She hasn't any name on the programme, for the management fears she might be-

garters, but she is one of the pretty, girls who help give a bite out of "Olivet."

They appear later on, all of them, in a charmingly pretty little sketch called "The Pive Chrysanthemums and Mr. Owl." It is all girls with fluttery skirts and softened lights and music that rocks and sways with dreamy cadence. The management gives assurance that the opera troupe can do better when it is feeling good, but last night the hunk that was cut out of "Olivet" to open the bill was decidedly underdone. The audience was very small, as it always is in the early part of the week at the Chutes, and it is desperately discouraging to be bright and funny when you have to take out a search warrant to find a laugh.

So there is excuse for "Olivet."

A live coon, named Lamar, with a mouth like a whale, and an iron nerve, rattled out a joily rag-time act and dragged along a very bum actor who is his team mate.

Christy, a Juggler, and Bushlash, an Arab, who has a backbone that can be used for a dishrag and swrung out, gave an exhibition of contortion with the stage set for the infernal regions. It would be cheering to know positively that more of the actor profession are going to atone, by similar writhings, when they get there.

LONDON, Jan. 7.—The Times this morning devotes a long editorial to a review of the economic situation in the United States. In this it takes the view that in spite of apparently tremendous material progress made in America of recent years, this progress is insufficient to warrant the view of its economic results held either by sanguine Americans or by timid Europeans.

Capt. Hall Denounces the Intimation of the Frenchmen as Absurd.

(BY THE NEW ASSOCIATED PRESS—A.M.1 SAN FRANCISCO, Jan. 6.—The cross-accusations as to who was responsible for the sinking of the Walla Walla, and the loss of life incident thereto, may be finally settled in the Federal coursa. Although no positive assertion to that effect has been made by the officials of the Pacific Coast Steamship Company, owners of the sunken steamer, it is generally believed that the company will libel the French bark Max, and in this way secure part compensation for the financial loss involved in the destruction of the Walla Walla. The claims made by Capt. Benoist of the Max are so sweeping that it is thought probable that the Pacific Coast Company will ask that the court determine the responsibility for the dis-

determine the responsibility for the disaster.

From 8 o'clock this morning until 1 o'clock this afternoon, Capt. Hall and his fellow-officers of the wrecked steamer Walls Walla were closeted with Edwin Goodall and other officials of the Pacific Coast Steamship Company in the private office of the general manager. The story of the wreck and all the incidents of the disaster were gone over in detail. Three stenographers worked at reporting and transcribing the testimony of the Walla Walla's officers, which was related in a straightforward manner, and, according to the information that leaked out of the office, agreed in the main points of the evidence.

The company gave out no statement concerning what was said by the steamship officers under cross-examination by Goodall, but it is understood that nothing more than has already been published was adduced during the long sinterview.

Capt. Robert Benoist, commander of the bark Max, blames the officers and crew of the Walla Walla for the disaster that sent the steamer under and cost many lives. The French captain

the accident, confirmed the captain's story.

Capt. Hall is indignant at the charges made by the captain of the French bark Max. He declares that the statement made by Capt. Benoist is absurd. He says:

"In the first place, there were three men on the deck. Wilson and Nelson were on the foredastle, Hughes was on the bridge. If Hughes were asleep it is not likely that both the other men would be in the same condition. The charge of drunkenness is also absurd. I saw Hughes at 4 o'clock when he came on to relieve Lupp, and he was perfectly sober.

"If Capt. Benoist saw us for ten minutes before the accident, why did he not see us afterward? The engines were stopped."

SAN FRANCISCO, Jan. 6.—Although barely recovered from their terrible experience of four days ago, a number of the passengers of the steamer Walla Walla today embarked on another voyage over the same northern course which led them into an awful disaster early Thursday morning.

Among the passengers of the Walla Walla who departed on the Umatilia for Seattle and Tacoma today were T. W., Stream and his wife and mother, F. W. Daley, A. B. McLellan, A. Meydenbauer and his mother and Mr. and Mrs. J. Miller.

LONDON, Jan. 6.—[By Atlantic Cable.] In speaking at Binghamton today, Joseph Chamberlain, the Colonial Secretary, referred to the hatred and Jealousy of Great Britain which is entertained abroad, and denied that this was due to the existence of a particularly wicked government.

"This is no new thing in history," he said, "and we must maintain our splendid isolation, surrounded and supported by our colonial kinsfolk."

While fully admitting the necessity of finding new markets and keeping abreast of modern times and methods, Chamberlain saw no sign of any imminent or pressing danger to British trade.

The Colonial Secretary strongly depreciated any attempt on the part of trades unloss to restrict the output and reduce all workmen to a dead level of mediocrity. In this connection the speaker referred to the opinions of Senator Hanna and President Schwab

Talked to Stackpole.

Councilman Walker has just returned from a two weeks' pleasure trip into Mexico. He was accompanied by Mrs. Walker, and most of the time was spent at the City of Mexico. While there Mr. and Mrs. Walker were quartered at the Hotel Iturbide, the largest and finest hostelry in the Mexican capital. Just a week before, Walker says, Henry J. Fleishman the absonding bank cashler, was a guest at the hotel. He registered, it is supposed, under the name of Myers. Fleishman stayed two days, and then left for Guadalajara, near which place Walker believes he is still in hiding.

In the city of Mexico, Walker met G., B. Stackpole, an agent for a fire G. B. Stackpole, an agent for a fire hose company, who is well known in this city. Stackpole told Walker that he had seen Fleishman several times and had talked with him freely about the defalcation. According to Stackpole, Fleishman did not attempt to conceal his hurried flight, but readily told him of the circumstances. Fleishman, Stackpole said, asserts that he has been a catspaw for other parties, and that there is much information of a sensational nature regarding the defalcation that has never come to light. He intimated to Stackpole, so the latter told Walker, that others besides himself were concerned, but that he had taken all the blame.

Walker says that the Mexican officials are making no effort to capture Fleishman, and that he does not believe they ever did or will. He is very positive in the belief that the cashier has not fied to South America, but is still in Mexico.

LAWYER IN JAIL

Fired Out and the Chief Says He Will not Go in Again Except as a

Prisoner.

For a brief fifteen minutes yesterday afternoon the Chief of Police was mad, very mad, and with reason. He accidentally found a lawyer in the woman's department of the City Jail, coolly quizzing a female prisoner and trying to ascertain for the benefit of another attorney something which might possibly be used in a damage suit threatened against the police department. What he said to that lawyer would not look well in print. The legal light feft in a hurry, for the Chief is above the average size of men.

Saturday afternoon, Alice Adams, over whom a "floater" is hanging, was taken in drunk. She was passing through the city, and as a result of her drunkenness had a good chance of having to serve out the "floater." Yesterday she asked the Chief to send for

He had understood when he voted that all the people in that section were opposed to the sale of the sewage, because of the smell, but if he was misinformed, why,

leated by the water company since the voting of the bonds, less actual expenses. For operation and interest charges. When the \$1,00,00 is finally paid ever to the water company these the confern. Aiready about \$6,00 is waiting for the final settlement of the matter, to swell the city's funds. This result proves that the people made no mistake in voting bonds for the punt will suffice to pay for necessary extensions and improvements in the system, when the city comes into possession.

It is to be hoped that the bonds will see to be about a week may consummant the water company. Improvement and the water system, vitally necessary to the city's welfare, are being delayed by non-realisation on the bonds. When once again the city comes into possession of its own, the day should be set aside for general rejoicing. In this connection, permit me to transport the property carry on the extensive business that will be intrusted to them. In my opinion, it will be to the best minerests of the city retain the employs who have had the management of the several departments of the water-supply system under private interests of the city to retain the employs who have had the management of the several departments of the water-supply system under private interests of the city to retain the employs who have had the management of the several departments of them. In my opinion, it will be to the best interests of the city to retain the employs who have had the management of the several departments of the water-supply system under private interests of the city to retain the employs the complete of the complete don that has characterized former debates on this constantly-recurring subject.

Yesterday a tenacious farmer came
to town to see what the outcome would
be. Without leave from any one he
wandered out into the center of the
Council chamber and said he wanted to
know what the Council was going to
do about "that there sewer matter, any
way." Some of his neighbors, as well
as himself, he declared, were vitally interested and couldn't afford to wait.

Then a cold and chilly silence, like a
pall, spread over the nine legislative
desks. Each solon looked at his neighbor in a sort of "pass-it-up-to-you"
manner, which indicated that there
might be some interesting things said
if the ball once got started.

Finally Bowen launched forth and
explained the former recommendation
of the Sewer Committee, and declared,
that almost every one was satisfied
with that arrangement.

"I cannot understand why this Council, without a request from a living
soul, should have changed its position,"
he declared.

Bowen further stated that he would
be very glad, indeed, to stop the sale of
sewage if that action could be taken
without imperiling the interests of the
city. On this point all the Councilmen
agreed, but some thought that the sale
of sewage is not necessary to protect
the city.

Pierce wandered all through the Gen-

able being far too limited. Let us hope that before another year has passed we will be able to provide a separate building for the library that will be a credit to the city. This department is deserving of your most liberal action in making appropriations for the next fiscal year.

All the public bridges should at once be placed in safe condition, and needed new sones erected as rapidly as you can provide the necessary funds.

I advocate the calling of a bond election as soon as possible to provide means for the building of an adequate \$4500.

Th street department was authorized to place a wooden flume across Flower street at Court sireet to relieve the storm water conditions at that point. The estimated cost is \$200.

STOLE BICYCLE PARTS.
Grant Trask and George E. Thayer,
two boys, were tried in the criminal
court yesterday and convicted of
petty larceny. On December 15 they
stole parts of a Tribune bicycle. When
arrested the complaint charged them
with grand larceny, but it was proved that they did not steal the entire wheel. The complaining witness yesterday was Charles D, Wagner, a small boy, residing at No. 232 West Thirty-first street, who testified more intelligently than many adults twice his age. He stated that on the night his wheel was stolen he had left it in front of the Burbank Theater about 7;30 p.m.; at 11 o'clock he left the theater and found his wheel missing. Phillip Freeze, another boy, known on the streets as "Philadelphia Freeze," and Frank Cartier, testified that they found the frame of the stolen wheel on a pile of bricks back of the postoffice building.

"We hiked that wheel."

that work on the construction of a new plant for the California Liquid Asphalt' Company will be commenced within a few days. Since the fire that destroyed the factory formerly operated by the company, it has been decided to purchase a new site. The new plant will be much larger than the old, and will enable the company to make important improvements in the manufacturing of liquid asphalt. Heretofore the oil has been thrown away, but with the new machinery this valuable ingredient will be saved, and sold as fuel for oil stoves.

EVENTS IN SOCIETY.

Mrs. A. R. Glidden entertained the members of the Pine Forest Whist Club yesterday afternoon at her home. No. 224 North Belmont avenue. The meeting was one of the most unique and entertaining of the season, and the decorations were especially attractive. The rooms were ornamented with pine cones, and many ideas suggestive of the club's name were carried out. During the afternoon pine forest punch was served, and at the close of the game the guests were entertained with refreshments. Mrs. Mary E. Nichols captured first prize, a view of Mt. Shasta, surrounded with pines, and the second a dwarf pine in a Japanese jardiniere, was won by Mrs. Eugene Campbell. Mrs. Vinton L. Mitchell will entertain the club two weeks from yesterday at her home, No. 212 Bonnie Brae street. The club members include the following-named: Mmss. Henry Binford. Eugene Campbell, Laura F. Clark, A. R. Glidden, L. H. Hobard, John H. Jones, W. T. Jeffries, J. Jepson, Octavius Morgan, Charles H. Matthay, Vinton L. Mitchell, Mary E. Nichols, M. P. Snyder, H. B. Sherman, S. W. Monday Musical Club.

Mrs. W. F. Botaford entertained the members of the Monday Musical Club and a few outside friends yesterday afternoon at her residence on Orange street. An unusually interesting programme was rendered, to which the following contributed numbers: Mr. and Mrs. Charles Modini-Wood, Mrs. Mary J. Schallert, Miss Edna Bicknell, Miss Mary Muilins, Miss Clara Bosbyshell, Miss Miriam Barnes, Miss Estelle Heartt, Mrs. Ed Davis, Miss Anna Virginia Metcalfe, Mrs. Doolittle, Miss Eleanore Goodman and Mrs. Clark, guests of the club, contributed several beautiful vocal solos. At the close of the programme refreshments were served.

LEAGUE MEETING PRIDAY.

Manager Morley of last season's Los Angeles club will leave Thursday night for San Francisco to attend a meeting of baseball magnates, which will be held in that city, next Friday night. Several important matters will come before that meeting, the principal one being the question as to who will have control of the Saeramento team for the coming season, which begins the first week in April. After the various league matters are settled the magnates can begin in earnest the hard task of signing new players for this year's teams. The majority of the players on last year's four teams will remain in this State until March before flying out to eastern fields, providing they have inducements to fly.

Morley states that during the coming season Sunday morning games will be played in this city by all the visiting clubs.

MINOR BASSBBALL. LEAGUE MEETING FRIDAY.

The Admirals of this city beat the team of The Palms at that town last Sunday for a 550 purse, the score being 18 to 4. Kid Solomon, the prize fighter, pitched for the winners, and his work in the box was the feature of the game. He fanned out twenty batters.

The teams of the Los Angeles Y.M. C.A. and the Signal Corps will play the second game of basket ball of the winte season at the Y.M.C.A. building nex Saturday night.

In the morning the Executive Committee held an executive session in the Horticultural Commission's rooms at the Courthouse, sil but three of the twenty-four members being present. There are eight sub-committees of three and plans of work were laid out for these. Hon. T. P. Lukens, ex-Mayor of Pasadena, and now a member of the grand jury, was elected to fill a vaccancy on the Executive Committee. The report of the Executive Committee and Bylaws was read and adopted by the society. Attention was called to the destruction of an avenue of eucalypti at Santa Monica, and the matter was referred to the Committee on Patrol for investigation.

The programme of papers was arranged under the general topic, "Shade Trees Bultable for Roadside Planting." Each paper was accorded fifteen minutes of open discussion, and this

billion dollars in interest. He supported the national bank note system and explained how it has aided in bringing the existing prosperity.

"Lack of confidence is always the cause of a panic," he said, "and they will always be possible under the present system, which has its defects. The great need of a safer basis is universally acknowledged, and many schemes have been formulated to ameliorate the conditions, but none have been considered closely by Congress. During the panic of 1892 many banks were saved from going to the wall by breaking the law and issuing a currency of their own, which were 'clearinghouse' loan certificates. If Congress would authorize some such a system, I believe it would act as a great safeguard against panics in the big cities."

Improvement Club Formed to Bring About Needed Reforms and Preserve it from Hands of Despoiler.

Hear! Hear!
Lincoln Park is situated just outside
the city limits of Los Angeles, and
just inside the limits of South Pasadena.
Either way it is dusty and up hill.
Either way it is a mile to a postoffice.

Bither way it is a mile to a postoffice.

And it wants protection—it wants protection for its wild flowers, if you please.

That was one of the avowed purposes in the formation of the Lincoln Park Improvement Club, on Saturday last.

Hetter postoffice facilities, cheaper car fare, more water and nuisances abuted, are enumerated; but the wild flowers come first, if you please.

Its first meeting was a lively one, "owing to the sting of having just seen its beautiful trees and wild flowers ruthlessly damaged by the young people, who swarmed through it during the holiday season."

The club has a futupe, and will endeavor to pull the park out of the "slough of despond."

FORMIDABLE CANDIDATE.

A telegram received here from R. C. Allen, who is now in Washington, announces that he has declared himself as a candidate for the appointment of Collector of Customs at this port, and has called on the President to that purpose. As he was formerly a classmate of Roosevelt at Harvard, and also at the Celumbia Law School, it is thought that he stands an excellent chance for the appointment, and the prospects of W. W. Bowers, the incumbent, as well as the various other candidates who have declared themselves, have begun to fade and look sickly. Bowers is much worried over the result. Allen is president of the Sweetwater Fruit Association, and is very popular here.

ALLEGED CATTLE THIEVES.

Officers today arrested Todd Johnson and J. M. Brooks, near this city for cattle stealing, and they are held in \$1000 bail. Both had been suspected and were caught with the carcasses in a wagon while on a roundabout way into the city. The cattle are said to have been stolen from the Gilbert ranch. Johnson has been tried twice on a similar charge, but was acquitted each time.

FORMIDABLE CANDIDATE.

A telegram received here from R. C. Allen, who is now in Washington, an-

control of some of the good things in that line in the Philippines.

Representative Metcalf of California has voiced a sentiment that finds pretty general commendation from legislators who have the real development of the Philippines in mind, when he comes out for the repeal of the (Hoar amendment. This amendment was adopted as a part of the Philippines, bill in the closing days of the last session of Congress, when it was certain that the bill could not be passed before adjournment without such an amendment being added to it, on account of the attitude of the now almost extinct race of anti-imperialists. The amendment prohibits the granting of franchises of any kind in the islands, and Mr. Metcalf says that it stands as a solid barrier against the development of the rich resources there. While it is in force the mines of the Philippines cannot be opened up and operated, the public lands cannot be taken up, the great forests cannot be worked, railroads cannot be built, and things generally are tied up, and restricted in an industrial way. It is quite certain that, the anti-imperialists sentiment having failed in health very noticeably during the last year, this proposition from the gentleman from California will receive considerable attention before Congress adjourns. It will receive the more from the fact that Mr. Metcalf is now a member of the Ways and Means Committee, and in a position to bring his ideas before the men who control legislation in Congress, He declares that if this amendment were to be repealed, there would be an instant development of all lines of healthy business in the Philippines, and that this development would result in an immense increase in the trade between California and the islands. Actor Says Manager Brune Gave Him Dope and Thus Induced Him to Do

Many Queer Things.

(BY THE NEW ASSOCIATED PRESS—A.M.)

KANSAS CITY (Mo.) Jan. 6.—Melbourne MacDowell, the actor, who ended an engagement here yesterday, today in Kansas City, Kan., signed a sensational deposition in his suit tended an engagement here yesterday, today in Kansas City, Kan, signed a sensational deposition in his suit against Clarence M. Brune, a theatrical manager, who last season starred his wife, Minnie Tittell Brune, and MacDowell in Sardou's play, "Theodora."

MacDowell, in his deposition, swears that in New York, while intoxicated, he was induced to sign bills of sale conveying the rights to the Sardou plays to Brune for \$500. He asserts that fraud was used in bringing about the transaction, and asks that it be set aside. The suit was filed in Ramsay county, Minn., and seeks to recover damages and to restrain Brune from producing any of the Sardou plays. Other sensational statements are made by MacDowell in his deposition, one being to the effect that he was drugged in New York, put on board a steamer and taken first to Boston and then to Newport News, and that at Baltimore later, and while still under the influence of the drug, he was married.

LOCAL PRODUCE MARKETS. The week opens with a steady market on all kinds of produce. There is hardly a quotable change to note.

Eggs are scarce for local ranch, and they are quoted somewhat far apart. One house declares they do not attempt to get above 28 cents: another insists they are getting 30 cents for every egg they sell; the third one says 23 to 29 cents is the market, and the next one quotes 29 to 30 cents. It is by no means unusual to find just such divergence of views in the market at odd times.

Butter is very steady on all good to choice grades.

Oranges are going East quite freety. The market there is fair for good fruit, but poor fruit is not wanted. Its presence is complained of as affecting good fruit.

REDLANDS. Jan. 6.—[From The times' Resident Correspondent.] There was a row and general mix-up yesterisy afternoon in the Mexican quaster if town, as a result of which Frances buarte, Alonso Martinez, Guadelupe lodrigues and Florence Flores all resented a well-battered appearance in the Justice Court this morning. Duarte seems to have gotten the worst of the battle, somebody having broken to bottle on his head, inflicting quite in ugly wound, besides having one or entirely flosed by a blow. Three if the four arraigned pleaded guilty ind one, Martinez, protested that he ras innocent of the charge of disturbing the peace. The fight started after hey had emptied a jug of wine. The ase was set for further hearing tomortow.

"The trial balance reports for Nowember indicate that practically all the urban and interurban electric railways of the syndicate are money-makers."

Continuing, Newcomb said: "The syndicate controls twenty-five distinct telephone companies. So far as we have been able to learn from a superficial examination, these companies are almost without exception capable of paying fair dividends."

Newcomb added that in his judgment the embarrassment of the syndicate resulted simply from the fact that many new enterprises were put under way before they were financed.

Tom Fitch Says He is Out of Politics.

His Reasons for not Speaking at a Kanaka Meeting.

Col. Tom Fitch, the silver-tongued of happy memory, has made his last political speech. At least the Honolulu Commercial Advertiser of recent date quotes him as saying so, and these are the reasons given:

"Political speaking and I parted company forever last January when, after forty years of uncompensated service on the hustings to the Republican cause, and in despite of piedges, the Utah Senatorship, which I had fairly earned, was sold to a lucky millionaire mine owner.

"Again, I am not prepared to ratify all the views expressed by President Roosevelt in his message "o Congress, for I do not believe in excluding Chinese agricultural laborers from these listands, nor in extending the United Commercial Advertiser of recent date quotes him as saying so, and these are the reasons given:

"Political speaking and I parted company forever last January when, after forty years of uncompensated service on the hustings to the Republican cause, and in despite of pledges, the Utah Senatorship, which I had fairly earned, was sold to a lucky millionaire mine owner.

"Again, I am not prepared to ratify all the views expressed by President Roosevelt in his message 'n Congress, for I do not believe in excluding Chinese agricultural laborers from these islands, nor in extending the United States land laws to them without modification.

States land laws to them without modification.

"As for the suffrage, surely it would be un-American to take it away from any people who now have it. I am and always have been glad and proud of our acquisition of these islands, but as to the manner of their acquisition? Let the truth be told, and the devil shamed. We 'swiped' the Kanaka's country—that's a fact. We gave the natives in exchange peace, safety, prosperity and American citizenship. It would be, in my opinion, a shameful thing to take away from them the highest privilege of that citizenship. They may not be as well prepared now to exercise it as those 'born in the purple' of it, but they are not anarchists or irreconcillables. They are a gentle, kindly, honest, hoseitshie agentle in the sufficiency of the sufficiency of the sufficiency of the liquor business. BOY'S PAINFUL ACCIDENT.

AVALON, Jan. 6.—(From The Times' Resident Correspondent.] The young son of T. J. Bolton met with an accident Saturday which will cause him considerable inconvenience, especially at meal times, for some time to come. He was sliding down the long banisters in front of "The Chalet," in an upright position, when he picked up a splither, which entered his anatomy more than six finches. Dr. Packham was called and when he attempted to withdraw it, the splinter was found to have been broken into three pieces. Dr. A. H. Johnson of Cedar Rapids, lowa, a guest at Hotel Metropole, was then called; and an anesthetic administered, and after a deal of cutting the eces were removed, leaving a very evere wound. SANTA MONICA CITY FATHERS UNABLE TO AGREE.

Special Election to Be Held on Question of Reorganizing the Municipal Government—Census of Town to Be Taken-Landlubbers Beat Sailors.

SANTA MONICA, Jan. 6.—[From The Times' Correspondent.] After having in private conference wrestled with the question of a city hall site for a long while, the City Trustees this afternoon, at their official meeting, failed to take any action on the matter. Quite a number of the leading business men attended the meeting and went away disappointed because no action, had been taken on the much-discussed question.

An ordinance was adopted calling an election for January 28, at which the question of reorganising the town as a city of the fifth class is to be submitted. In connection with the adoption of the ordinance the board, on rhotion of Trustee Morgan, adopted an ordinance providing for the taking of a census of the city. The ordinance specifies how the census shall be taken, and says that when the result shall have been filed with the Secretary of State, it "shall then be known as the official State census of the city of Santa Monica." S. A. Wheeler and H. E. Higgins are to be the enumerators, and they are to receive a cents per name for the work.

the population of Santa Monica is 3057. Trustee Morgan insists that there are not that many people now permanently residing in the city, and his motion to have a census taken is understood to be for the purpose of demonstrating the assertion. A committee of the City Trustees to supervise the taking of the census was appointed, consisting of Trustees Morgan, Sammis and Folsom. A contract for the publication of city advertising in the Santa Monica Outlook for the ensuing year was approved. The prices are: For first insertion, 45 cents per inch; for second insertion, 35% cents per inch.

President Robert F. Jones and Trustee T. H. Dudley were chosen to represent Santa Monica at the convention of the League of California Municipalities in Los Angeles, Tuesday.

WATER QUESTION.

Capt. A. H. Johnson, chairman of the Water Committee of the City Council, on Saturday evening presented an ordinance calling for an issue of bonds to the amount of \$15,000\$, for the improvement of the water system of the city. The matter was referred to the Water Committee, and the entire board will go over the whole water system to investigate the necessary improvements. There is considerable opposition to a further issue of bonds at this time, but in the opinion of many a further sum should be expended in enlarging the pumping plant and laying considerable sipe.

STREET WIDENING. STREET WIDENING.

A movement is on foot to widen white Oak avenue, the principal driveway running east and west through the city. The property owners on the north side of this avenue are willing to give eight feet off the frontage of their property and the Council has appointed a committee to induce property owners on the south side to do likewise.

An order has been issued to open Cypress avenue, east to the city limits, and the president of the Council has been authorized to purchase two lots, necessary for the opening of said street.
